INDEPENDENT AUDITOR'S REPORT

To the City Council
City of Ouray, Colorado

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Ouray, Colorado as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Ouray, Colorado, as of December 31, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and Schedule of Activity-Net Position on pages 3–11, 38 and 39 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Ouray, Colorado basic financial statements. The combining and individual fund financial statements and Local Highway Finance Report are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and Local Highway Finance Report are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and Local Highway Finance Report are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

CITY OF OURAY
Management's Discussion and Analysis
Year Ended December 31, 2018

The Ouray City Council and Administration are responsible for the management of the City's activities, and thus their financial results. We therefore offer the following analysis and discussion of the accompanying financial statements.

FINANCIAL HIGHLIGHTS

As of December 31, 2018

Change in Net Position:

Total Assets and Deferred Outflows		\$22,773,178
Total Liabilities and Deferred Resources		<u>9,585,339</u>
Net Position	12/31/18	\$13,187,839
	12/31/17	<u>12,636,644</u>
Increase (Decrease)		\$ 551,195

Governmental Fund Balances:

	<u>1/1/18</u>	<u>12/31/18</u>	Increase (Decrease)
General Fund	\$ 468,123	\$ 503,668	\$ 35,545
Capital Imp Fund	484,562	652,355	167,793
Non-major Funds	<u>259,017</u>	<u>273,814</u>	<u>14,797</u>
Total Funds	<u>\$1,211,702</u>	<u>\$1,429,837</u>	<u>\$ 218,135</u>

Capital Assets, net of accumulated depreciation:

	<u>1/1/18</u>	<u>12/31/18</u>	Increase (Decrease)
Governmental Activities	\$ 1,945,793	\$ 2,058,453	\$ 112,660
Business-type Activities	<u>15,999,747</u>	<u>15,454,420</u>	<u>(545,327)</u>
Total Capital Assets	<u>\$17,945,540</u>	<u>\$17,512,873</u>	<u>\$ (432,667)</u>

Cash and Cash Equivalents:

	<u>12/31/18</u>
Governmental Activities	\$1,495,229
Business-type Activities	<u>2,619,282</u>
Total Cash and Cash Equivalents	<u>\$4,114,511</u>

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The basic statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business.

The **statement of net position** presents information on all the City's assets and liabilities, with the difference between the two being reported as net position. Over time, the increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The **statement of activities** presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position is reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses reported in this statement for some items will result in cash flows in future periods (e.g. uncollected taxes and earned but unused personal time).

The government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*Governmental Activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*Business-type Activities*). The Governmental Activities of the City include general government administration, police, fire, public works, and community center. The Business-type Activities of the City include the following utilities: water, sewer, refuse/recycling, and utilities-capital improvements; in addition to parks and recreation.

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. The City's funds can be divided into three categories: Governmental Funds, Proprietary Funds and Fiduciary Funds.

Governmental Funds – *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *short-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's short-term financing requirements. The accounting method is called *modified accrual* accounting.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental activities in the *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements.

By doing so, readers may better understand the long-term impact of the government's short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains one major government fund, the General Fund. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund.

Proprietary Funds – The City maintains one type of proprietary fund. *Enterprise Funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses a separate enterprise fund to account for each of its utility funds: Water, Sewer, Refuse/Recycling, and Utilities – Capital Improvements Fund, Parks and Recreation Fund and to account for its Pool Renovation Fund.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position

As noted previously, net position may serve over time as a useful indicator of the City’s financial position. For the year ended December 31, 2018, the City’s combined assets exceeded liabilities by \$ 13,187,839. Of this amount, \$ 3,878,555 is unrestricted and available to meet the City’s ongoing financial obligations.

By far the largest portion of net position is the investment in capital assets (net of related debt) of \$ 9,114,022 (69% of net position). This amount reflects the investment in all capital assets (e.g. infrastructure, land, buildings, and equipment) less any related debt used to acquire those assets that are still outstanding. These capital assets are used to provide services to citizens; consequently, these assets are not available for future spending. Although the investment in capital assets is reported net of debt, it should be noted that the resources needed to repay this debt must be provided from other sources since capital assets themselves cannot be used to liquidate these liabilities.

The following table summarizes the City’s governmental and business-type net position for 2018:

	Governmental Activities		Business-Type Activities		Total	
	2018	2017	2018	2017	2018	2017
ASSETS

Governmental Activities

Governmental activities increased the City's net position by \$448,192.

Revenues by Source-Governmental Activities

In 2018, property tax revenues decreased by 3%, and sales/occupation tax revenues increased by 9%, compared to the prior year.

Business-type Activities

Business-type activities for the year resulted in an increase in net position of \$ 103,003. Charges for services accounted for 91% of total revenues.

FINANCIAL ANALYSIS OF GOVERNMENT'S FUNDS

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

As of the end of 2018, the City's governmental funds reported combined ending fund balances of \$ 1,429,837, an increase of \$ 218,135 in comparison with the prior year. Of the combined ending fund balances for all governmental funds 10% of this total amount, \$ 145,188, constitutes unassigned fund balance, which is available for appropriation at the City's discretion; committed fund balance is 73%, or \$ 1,037,262, of governmental fund balances. There is \$ 131,461 of fund balance that is statutorily restricted to capital spending for parks and recreation. Non-spendable fund balance of \$ 7,321 represents inventoried materials. The remaining fund balance is restricted to indicate that it is not available for new spending, because it is already committed to meet a State constitution mandated emergency reserve of \$ 108,605.

The City has one major governmental fund, the General Fund, which is the primary operating fund for the City. At the end of 2018, unassigned fund balance of the General Fund was \$ 145,188, while the total fund balance was \$ 503,668. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. The fund balance of the City's General Fund increased by \$ 35,545 during 2018.

Proprietary funds. The City's proprietary fund statements provide the same type of information found in the government-wide financial statements, but in more detail.

The City has five enterprise funds: Water Fund, Sewer Fund, Refuse/Recycling Fund, Utilities – Capital Improvements Fund, and Parks and Recreation Fund. At the end of 2018, these funds represented the following net position amounts:

Fund:	Water	Sewer	Refuse/Rcycl.	Pool Renov.	Utilities – CI	Parks & Rec.
Unrestricted net position	34,770	506,555	9,231	595,163	326,083	845,305
Total net position	3,375,493	979,808	9,231	595,163	326,083	4,431,961
Increase (decrease) in net position	(35,547)	(76,111)	(11,328)	175,281	128,014	(77,306)

GENERAL FUND BUDGETARY HIGHLIGHTS

The City budgeted \$ 2,421,118 for 2018 expenditures. Actual expenditures were \$ 2,309,148, or 5% less than the budgeted amount.

CAPITAL ASSET AND DEBT ADMINISTRATION

The City's investment in capital assets, net of depreciation, for its governmental and business-type activities as of December 31, 2018, was \$ 17,512,873, a decrease of \$ 432,667 from the prior year, representing \$ 399,585 of acquisitions offset by \$ 865,707 of depreciation expense and \$ 1,273,101 in capital asset deletions and removal of \$ 1,306,556 in associated depreciation. As required by GASB34, the investment in capital assets includes land, buildings, building improvements, and equipment.

Long-term Debt

As of December 31, 2018, the City had long-term debt as follows:

	Balance			Balance December 31, 2018	Due Within One Year
	January 1, 2018	Additions	Reductions		
Governmental Activities					
Plow-Sander	\$ 19,604	\$ -	\$ (19,604)	\$ -	\$ -

Total	\$ 8,432,638	\$ 31,236	\$ (323,430)	\$ 8,140,444	\$ 327,890

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

- The City is in fair financial condition.
- Water reserves are low and Sewer reserves are healthy for operations, however not adequate to cover major capital improvements. In 2017 Water and Sewer rate combined equaled \$64.64. 2018 Water and Sewer rates were increased to \$69.37 with consideration for additional sewer increases regarding permit compliance.
- General Fund reserves are higher than estimated. The City began to grow General Fund reserves with the 2006 voter approved move of the 1% sales tax from the Water Fund to the General Fund. In 2011, other parks and Ski Tow were transferred from the Parks Fund to the General Fund, representing a structural correction of City funds. From 2011 to 2015 these expenditures averaged \$164,000 annually, for which there has been no additional supporting revenue source. General Fund reserves were used to cover these expenditures. Without increased General Fund revenues, core services would be impacted. In November 2014, voters approved removing the TABOR amendment revenue and spending limits on property taxes (aka d-Brucing0 and authorized return to the preserved 13.585 mill levy.
- Tax receipt income was 99.6% of the 2017 Budget.
- Sales tax revenues account for 50% of the 2017 budgeted General Fund revenue, excluding grants, and are an important source for providing funds for the general operations and maintenance of the City. Sales Tax continues a healthy incremental growth, due to increased tourism and slightly improved overall economic conditions. In November 2015 voters approved a 1% Sales tax increase to pay for Capital projects, noting that renovation of the Hot Springs Pool and Bathhouse being the major project to be funded. The renovated Hot Springs Pool opened May of 2017. Pool operations encountered new challenges with the new design. City staff continue to determine best practices with input from City Council. Bathhouse planning is anticipated in 2019 for construction in a later year.
- Significant staff turnover contributed to most of the 2017 recruitment activity. City Administrator, Community Development Director, Finance and Administrative Director and Public Works Director positions were in transition. Transitions from early Spring Finance Director and Community Development Director resignations, two interim City Administrators from August to December, major supervisory position turnover within Public Works, and shared part-time Building Inspector position with Ridgway to end. 2018 cost of living increases were provided with additional activities to include staff retention.
- In 2014, the Council adopted a Strategic Plan to identify and prioritize its goals and objectives for the future. The Strategic Plan will be updated prior to the adoption of the 2019 budget with plans to update annually thereafter.

REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of the City's finance for all those with an interest in the government's finances. Questions concerning any of the information provided in the report or requests for additional financial information should be addressed to:

Katie Sickles – City Administrator: City of Ouray, PO Box 468, Ouray, CO 81427

CITY OF OURAY, COLORADO
Reconciliation of the Governmental Funds Balance
Sheet to the Statement of Net Position
December 31, 2018

Total fund balance, governmental funds \$ 1,429,837

Amounts reported for governmental activities in the Statement of Net Position is different because:

Capital assets used in governmental activities are not current period expenditures and therefore are not reported in this fund financial statement, but are reported in the governmental activities of the Statement of Net Position.

Cost of capital assets	\$ 9,552,957	
Less accumulated depreciation	<u>(7,494,504)</u>	2,058,453

Some liabilities, (such as Notes Payable, Capital Lease Contract Payable, Long-term Compensated Absences, and Bonds Payable), are not due and payable in the current period and are not included in the fund financial statement, but are included in the governmental activities of the Statement of Net Position.

Capital leases	\$ (258,406)	
Compensated absences	<u>(49,644)</u>	(308,050)

Net pension assets and related deferred inflows and outflows of resources are not recorded in the funds.		<u>289,860</u>
----------------------------------------------------------------------------------------------------------	--	----------------

Net Position of Governmental Activities in the Statement of Net Position \$ 3,470,100

CITY OF OURAY, COLORADO
Reconciliation of the Governmental Funds Statement of Revenues, Expenditures,
and Changes in Fund Balances to the Statement of Activities
For the Year Ended December 31, 2018

Net change in fund balances - total governmental funds \$ 218,135

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

Fixed assets current additions	\$ 274,724	
Depreciation expense	(164,204)	
Excess of capital outlay over depreciation		110,520
Gain on sale of assets		2,140

Some expenses reported in the statement of activities do not require the use of current financial resources: therefore, are not reported as expenditures in governmental funds.		(11,768)
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	----------

Pension expenses reported in the statement of activities do not require the use of current financial resources: therefore, are not reported as expenditures in governmental funds.		20,722
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	--------

Repayment of long-term debt principal is reported as an expenditure in the governmental funds but reduces long-term liabilities in the statement of net position.		108,443
-------------------------------------------------------------------------------------------------------------------------------------------------------------------	--	---------

Change in net position of governmental funds		\$ 448,192
-----------------------------------------------------	--	-------------------

The accompanying notes are an integral part of this statement.

The accompanying notes are an integral part of this statement.

City of Ouray
Notes to Basic Financial Statements
December 31, 2018

Note 1 - Summary of Significant Accounting Policies

The financial statements of the City of Ouray, Colorado (the City) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

A. Financial Reporting Entity

The City, adopted a home rule charter on May 5, 2009, with a council – administrator form of government with five elected Council members. As required by accounting principles generally accepted in the United States of America, these financial statements present the City of Ouray (the primary government). The City has no oversight responsibility for any other governmental entity since no other entities are considered to be controlled by or dependent on the City. Control or dependence is determined on the basis of budget adoption, taxing authority, funding, and appointment of the respective governing body.

Related Organizations

- The City and the Ouray Volunteer Fire Department provided fire protection to the citizens of Ouray. The volunteer fire department has a special fund that receives donations and fund raising monies, which are also used to cover fire protection services. This fund is not included in these financial statements of the City of Ouray.

B. Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the City and its component units. These statements include the financial activities of the overall government, except fiduciary activities. For the most part, the effect of inter-fund activity has been removed from these statements. These statements distinguish between the *governmental* and *business-type activities* of the City. Governmental activities, which normally are supported by taxes, charges for services and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on user charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

City of Ouray
Notes to Basic Financial Statements
December 31, 2018

Note 1 - Summary of Significant Accounting Policies - (continued)

C. Fund Financial Statements

The accounts of the City are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

All governmental funds are accounted for on a flow of current financial resources basis. Balance sheets for these funds generally include only current assets and current liabilities. Reported fund balances are considered a measure of available, spendable resources. Operating statements for these funds present a summary of available, spendable resources and expenditures for the period.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The City reports the following major governmental funds:

- The General Fund is the City's primary operating fund. It accounts for all financial resources of the City, except those required to be accounted for in another fund.
- The Capital Improvement Fund, which accounts for the Town's additional sales tax that is to be used for capital improvements.

The remaining governmental funds are aggregated and presented as non-major funds. Those funds include:

- The Conservation Trust Fund, which accounts for State of Colorado lottery funds to be used for parks and recreation services and capital investment.
- Beautification Fund, which accounts for lodging tax collections to be used for City beautification projects.
- Tourism Promotion Fund, which accounts for lodging tax collections for the promotion of tourism.

Enterprise Funds account for operations that are financed and operated in a manner similar to private business enterprises, where the intent is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. Enterprise funds are considered major funds because of community interests in the activities and sources of funding supporting these operations.

City of Ouray
Notes to Basic Financial Statements
December 31, 2018

Note 1 - Summary of Significant Accounting Policies - (continued)

C. Fund Financial Statements - (continued)

Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an enterprise fund's principal ongoing operations. The principal operating revenues of the City are charges for water, sewer, refuse, pool, park and other fees. Operating expenses for the enterprise funds include personnel services, contract services, utilities, repairs and maintenance, supplies, insurance and depreciation cost. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The City reports the following major enterprise fund business-type activities:

- Water, Sewer and Refuse Funds, which account for all operations of the City's water, sewer and refuse services. They are primarily financed by user charges.
- Utility Capital Improvement Fund, which accounts for the investment fees of water and sewer taps to be used for water and sewer capital expenditures.
- Park Fund, which accounts for all operations of the City's Hot Springs Pool and Box Cañon Park. They are primarily financed by user charges at the Hot Springs Pool and Box Cañon Park.
- Pool Renovation Fund, which accounts for the renovation of the City's Hot Springs Pool.

D. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the enterprise fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The modified accrual basis of accounting is used by all governmental funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

Expenditures are recorded when the related fund liability is incurred. Exceptions to this general rule include principal and interest on general long-term debt which is recognized when due, and compensated absences which are recognized when the obligations are expected to be liquidated with expendable available resources.

Those revenues susceptible to accrual are interest revenue and charges for services. Entitlement revenues are not susceptible to accrual because generally, they are not measurable until received. Grant revenues are recognized as they are earned.

City of Ouray
Notes to Basic Financial Statements
December 31, 2018

Note 1 - Summary of Significant Accounting Policies - (continued)

D. Measurement Focus and Basis of Accounting - (continued)

The accrual basis of accounting is utilized by enterprise funds. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Deferred Outflows / Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section of deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/ expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section of deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. Property taxes revenue that are related to a future period have been recorded as deferred inflows. Grants and entitlements received before eligibility requirements are met (e.g., cash advances) are recorded as deferred inflows. These amounts are deferred and will be recognized as an inflow of resources in the period that the amounts become available.

E. Cash and Cash Equivalents

For the purposes of the statement of cash flows of the enterprise funds, cash and cash equivalents consist of operating and restricted cash and highly liquid securities with an initial maturity of six months or less.

F. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

G. Property Taxes

Property taxes for the current year are levied and attached as a lien on property the following January 1. They are payable in full by April 30 or in two equal installments due February 28 and June 15. Property taxes levied in the current year and collected in the following year are reported as deferred inflows of resources at December 31. However, since the taxes are not available to pay current liabilities, the receivable is recorded as deferred inflows of resources in the governmental fund.

City of Ouray
Notes to Basic Financial Statements
December 31, 2018

Note 1 - Summary of Significant Accounting Policies - (continued)

H. Capital Assets

Capital assets, which include property, equipment and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capitalized assets are defined by the City as assets that have a useful life of one or more years, and for which the initial, individual value equals or exceeds \$ 5,000.

All purchased assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated assets are valued at their estimated fair market value on the date received. The cost of normal maintenance and repairs that does not add to the value of an asset or materially extend asset life is not capitalized.

Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

<u>Asset Class</u>	<u>Useful Life</u>
Improvements	10-20 years
Building and Other Improvements	40-50 years
Water and Sewer Systems	40-50 years
Furniture and Equipment	5-20 years
Swimming Pool	20-50 years
Infrastructure	15-40 years

Public domain assets consisting of roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems are examples of infrastructure assets. Infrastructure assets are distinguished from other capitalized assets as their useful life often extends beyond most other capital assets and are stationary in nature. General infrastructure assets are those associated with or arising from governmental activities.

I. Long-Term Liabilities

In the government-wide financial statements, and enterprise fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable government activities, business-type activities, or enterprise fund type statement of net position.

J. Compensated Absences

It is the City's policy for employees to accumulate earned but unused vacation and sick pay benefits but employees are not entitled to be paid for sick leave upon termination. In the government-wide statements, vacation and unused compensation time is accrued when incurred and reported as a liability of the governmental and business-type activities. In the governmental funds, vacation and unused compensation time is not expected to be liquidated with expendable available financial resources and therefore are not reported as expenditure.

City of Ouray
Notes to Basic Financial Statements
December 31, 2018

Note 1 - Summary of Significant Accounting Policies - (continued)

K. Net Position

Net position represent the difference between assets and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition or construction of improvements on those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

L. Interfund Transactions

Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed. At year end, outstanding balances between funds are reported as “due to/from other funds.” Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

M. Encumbrances

The City does not use an encumbrance system for budgetary control.

N. Inventory

Inventory is valued at lower of cost (first-in, first-out) or market. Reported inventories are equally offset by a fund balance reserve which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets.

O. Fund Equity

The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Non-spendable fund balance amounts that are not in spendable form (such as inventory) or are required to be maintained intact;
- Restricted fund balance-amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions or by enabling legislation;
- Committed fund balance-amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance-amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance-amounts that are available for any purpose; positive amounts are reported only in the general fund.

City of Ouray
Notes to Basic Financial Statements
December 31, 2018

Note 1 - Summary of Significant Accounting Policies - (continued)

O. Fund Equity - (continued)

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless City Council has provided otherwise in its commitment or assignment actions.

Note 2 - Reconciliation of Government-wide and Fund Financial Statements

The governmental funds balance sheet includes reconciliation between total fund balance, governmental funds and net position - governmental activities as reported in the government-wide statement of net position. Additionally, the governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between net change in fund balances - total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. The enterprise fund statement of net position and statement of revenues, expenses and changes in net position also includes reconciliation to the government-wide statement of net position and activities.

These reconciliations detail items that require adjustment to convert from the current resources measurement and modified accrual basis for government fund statements to the economic resources measurement and full accrual basis used for government-wide statements. However, certain items having no effect on measurement and basis of accounting were eliminated from the governmental fund statements during the consolidation of governmental activities.

Note 3 - Tax, Spending and Debt Limitations

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments, excluding “enterprises.” The City’s voters on November 8, 1994, approved a ballot measure to permit the City to collect, retain and expend the full proceeds of the City’s 3% sales tax, existing lodging occupation tax and non federal grants.

The Amendment is complex and subject to judicial interpretation. The City believes it is in compliance with the requirements of the amendment.

The Amendment requires that an emergency reserve be maintained at three percent of fiscal year spending. A portion of the General Fund’s fund balance is classified as restricted for emergencies as required by the Amendment.

City of Ouray
Notes to Basic Financial Statements
December 31, 2018

Note 4 - Budgets

The City adheres to the following procedures in establishing budgetary data reflected in the financial statements:

- A.** By mid August of each year, the City Administrator gives public notice of the budget calendar for the next fiscal year. The City Administrator asks that all City departments, boards, commissions or citizens submit within thirty days from the notice, any request for funds under the budget being prepared. The City Administrator, with assistance from the City Treasurer, then prepares a proposed budget for the ensuing fiscal year and submits it to the Council no later than forty-five days prior to any date required by state law for the certification to the County of the tax levy.
- B.** The budget provides a complete financial plan of all City funds and activities for the ensuing fiscal year indicating anticipated revenues, proposed operating and capital expenditures, a provision for contingencies, and anticipated net surplus or deficit for the ensuing fiscal year.
- C.** A public hearing on the proposed budget is held by the Council in early November.
- D.** The Council adopts the budget by resolution on or before the final day established by law for the certification of the ensuing year's tax levy to the County. Adoption of the budget by the Council shall constitute appropriations of the amounts specified therein as expenditures from the funds indicated and shall constitute a levy of the property tax therein proposed.
- E.** If during the fiscal year the City Administrator determines that there are expenses in excess of those estimated in the budget, the Council by resolution may make supplemental appropriations for the year up to the amount of such excess. To meet an emergency affecting public property, health, peace or safety, the Council may make emergency appropriations. If at any time during the fiscal year it appears probable to the City Administrator that the revenues available will be insufficient to meet the amount appropriated, the City Administrator reports to the Council, indicating the estimated amount of deficit, any remedial action already taken, and a recommendation as to any other steps to be taken. Any time during the fiscal year the City Administrator may transfer part or all of any unencumbered appropriation balance within a department.
- F.** Budget appropriations lapse at the end of each year.
- G.** Expenditures may not exceed appropriations at the fund level. Budget amounts included in the financial statements are based on the final amended budget. The City could be in violation of Colorado Budget Law because actual expenditures exceed budgetary amounts in the Refuse Fund. Revisions made to the original budgeted expenditures for each fund are as follows:

City of Ouray
Notes to Basic Financial Statements
December 31, 2018

Note 4 - Budgets - (continued)

	<u>Original Budget</u>	<u>Total Revisions</u>	<u>Final Budget</u>
General	\$ 2,319,854	\$ 101,264	\$ 2,421,118
Water	537,201	12,589	549,790
Sewer	607,923	-	607,923
Refuse	167,988	-	167,988
Utility Improvement	29,000	-	29,000
Pool Renovation	-	872,241	872,241
Parks	2,491,129	118,389	2,609,518
Capital Improvement	270,336	-	270,336
Tourism	238,000	-	238,000
Beautification	83,565	-	83,565
Conservation Trust	-	-	-
Total	<u>\$ 6,744,996</u>	<u>\$1,104,483</u>	<u>\$ 7,849,479</u>

- H.** Budgets for governmental funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America (GAAP), except for long-term receivables and advances and capital lease financing which are budgeted when liquidated rather than when the receivable/liability is incurred. Budgets for enterprise funds are adopted on a basis consistent with the spending measurement focus of the governmental funds.

Note 5 - Deposits and Investments

A. Deposits

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories; eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. The PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to the aggregate uninsured deposits. Collateral in the pool is considered to be equal to depository insurance pursuant to definitions listed in GASB Statement No. 40. At December 31, 2018, the bank balance of the City's deposits was \$3,907,827 of which \$259,751 was covered by federal depository insurance and \$3,648,076 was collateralized under PDPA.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local government entities may invest. Authorized investments include obligations of the United States and certain U.S. government agency securities; certain international agency securities; general obligation and revenue bonds of U.S. local government entities; bankers' acceptances of certain banks; commercial paper; local government investment pools; written repurchase agreements collateralized by certain authorized securities; certain money market funds; and, guaranteed investment contracts. The City's investment policy follows Colorado statutes. At December 31, 2018 the City's investments included funds held in COLOTRUST.

City of Ouray
Notes to Basic Financial Statements
December 31, 2018

Note 5 - Deposits and Investments - (continued)

A. Deposits - (continued)

The City had invested \$197,257 in the Colorado Government Liquid Asset Trust (COLOTRUST), an investment vehicle established for local government entities in Colorado to pool surplus funds. COLOTRUST operates similarly to a money market fund and each share is equal in value to \$1.00. Investments of COLOTRUST consist of U.S. Treasury bills, notes and note strips and repurchase agreements collateralized by U.S. Treasury securities. A designated custodial bank provides safekeeping and depository services to COLOTRUST in connection with the direct investment and withdrawal functions of COLOTRUST. Substantially all securities owned by COLOTRUST are held by the Federal Reserve Bank in the account maintained for the custodial bank. The custodian's internal records identify the investments owned by COLOTRUST. These pools are not required to and are not registered with the SEC. COLOTRUST's funds are rated AAA by Standard and Poor's, Fitch's and Moody's rating services.

The City maintains a cash pool that is available to the General Fund, Special Revenue Funds and Enterprise Funds.

Cash and cash equivalents	
Cash on hand	\$ 3,484
Deposits	3,693,829
Certificate of deposits	210,347
Cash with county treasurer	9,594

Sales Tax Revenue Bonds, Series 2016

On November 3, 2015, the City's electorate approved the issuance of \$5,300,000 in sales tax revenue bonds, for the purpose planning, constructing, acquiring and equipping improvements to the City's Hot Springs Pool Facility. The sales tax revenue bonds are payable from revenues generated by sales tax increase and also payable from any other legally available City revenues and pledge the full faith and credit of the City.

Note 7 - Defined Benefit Pension Plans

All volunteer fire fighters participate in the Defined Benefit Pension Plan administrated by the FPPA for plan administration and investment only. The plan has a plan document, actuarial valuation and is governed by the local pension board.

Any fire fighter, who has reached the age of 50 years and completed 20 years of active service, including 36 hours of training per year, is eligible for \$90 per month. In addition, there are survivor benefits of \$45 per month and a one-time only lump sum death benefit of \$180.

At December 31, 2018, the City reported an asset of \$319,485 for its proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2018, and the total pension asset used to calculate the net pension asset was determined by an actuarial study as of December 31, 2018. Standard update procedures were used to roll forward the total pension liability to December 31, 2015. The City's proportion of the net asset was based on City's contributions to FPPA for the calendar year 2018 relative to the total contributions of participating employers to FPPA.

For the year ended December 31, 2018, the City recognized pension expense of \$23,094. At December 31, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ -	\$ 29,625
Net difference between projected and actual earnings on pension plan investments	-	
Changes in proportion and differences between contributions recognized and proportionate share of contributions	-	-
Contributions subsequent to the measurement date	-	-
Total	<u>\$ -</u>	<u>\$ 29,625</u>

\$100,232 reported as deferred outflows related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as an increase of the net pension asset in the year ended December 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ending December 31</u>	<u>Net Deferred Outflows/ (Inflows) of Resources</u>
2019	\$ (29,625)
2020	-
2021	-
2022	-
2023	-
Thereafter	-
Total	<u>\$ (29,625)</u>

Actuarial assumptions. The total pension asset in December 31, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs:

City of Ouray
Notes to Basic Financial Statements
December 31, 2018

Note 7 - Defined Benefit Pension Plans – (continued)

Actuarially determined contribution rates are calculated as of January 1 of odd numbered years. The contribution rates have a one-year lag, so the actuarial valuation as of January 1, 2019, determines the contribution amounts for 2017 and 2018.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Dollar, Open*
Remaining Amortization Period	20 years*
Asset Valuation Method	5-Year smoothed market
Inflation	3.00%
Salary Increases	N/A
Investment Rate of Return	7.50%
Retirement Age	50% per year of eligibility until 100% at age 65
Mortality	Pre-retirement: RP-2000 Combined Mortality Table with Blue Collar Adjustment, 40% multiplier for off- duty mortality.
	Post-retirement: RP-2000 Combined Mortality Table with Blue Collar Adjustment.
	Disabled: RP-2000 Disabled Mortality Table
	All tables projected with Scale AA

*Plans that are heavily weighted with retiree liabilities use an amortization period based on the expected remaining lifetime of the participants.

Regarding the sensitivity of the net pension liability/ (asset) to changes in the Single Discount Rate, the following presents the plan's net pension liability/ (asset), calculated using a Single Discount Rate of 7.50%, as well as what the plan's net pension liability/ (asset) would be if it were calculated using a Single Discount Rate that is one percent lower or one percent higher:

Sensitivity of Net Pension Liability/(Asset)
to the Single Discount Rate Assumption

Current Single Discount		
1% Decrease	Rate Assumption	1% Increase
6.00%	7.00%	8.00%
\$ (273,844)	\$ (319,485)	\$ (365,126)

The Fire & Police Pension Association (FPPA) administers an agent multiple-employer Public Employee Retirement System (PERS). The PERS represents the assets of numerous separate plans that have been pooled for investment purposes. The pension plans have elected to affiliate with FPPA for plan administration and investment only. FPPA issues a publicly available comprehensive annual financial report that can be obtained at:<http://www.fppaco.org>.

City of Ouray
Notes to Basic Financial Statements
December 31, 2018

Note 8 - Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The City is a member of the Colorado Intergovernmental Risk Sharing Agency (CIRSA), a public entity risk pool currently operating as a common risk management and insurance program for property/casualty and workers' compensation coverage. CIRSA is to be self-sustaining through member contributions and reinsures through commercial companies for claims in excess of certain limits for each insured event. CIRSA members are subject to a supplemental assessment in the event of a deficiency.

Note 9 - Defined Contribution Plan

All full-time permanent employees of the City must participate in the City's group-retirement plan and may participate in the City's deferred compensation plan, after twelve (12) months of continuous employment. The plans are administered by Colorado County Officials and Employees Retirement Association (CCOERA) plan. The employees' contributions are fully vested and the City's contributions are vested at the rate of 20% per year.

Under the group retirement plan, the City contributes 3% of eligible employees' base salary, matching the amount contributed by the employees. In 2018 the City's total payroll was \$2,017,710. The City's contribution was calculated using a base salary amount of \$1,160,234. The City and the covered employees made the following contributions, amounting to \$34,807 and \$34,807 respectively for a total of \$69,614.

Note 10 - Contingent Liabilities

Lawsuits and Claims

Various claims and lawsuits are pending against the City. In the opinion of the City's management, after consulting with legal counsel, the potential loss on all claims and lawsuits will not materially affect the City's financial position.
